CAREER SUMMARY:

I am a solution-oriented graduate recently having completed a Diploma in Software Development. My practical experience, coupled with university projects, has allowed me to gain skills in communication, collaboration, and programming fundamentals which I hope to be valuable in this role. My ambition is to immerse myself in the web development industry, seeking opportunities to refine my expertise and make impactful contributions.

SKILLS:

- React (incl. Redux) - Studied
- Python (incl. Flask and Django) - Studied
- C++ (incl. OOP principles) - Studied
- AWS Practitioner Certified
- Communication
- Teamwork
- Creative thinking
- Problem solving

MOST RECENT PROJECT:

Django + React + Redux Ecommerce App - [link](#)

- A practical full stack Ecommerce web application using Django backend and React frontend
- Following Dennis Ivy's Django with React Udemy [tutorial](#)
- This experience has allowed me to learn and experience the Django framework, React hooks, Redux state management, and separating the frontend from the backend
